**PROUDLY SERVING  
THE ELECTRONICS  
INDUSTRY SINCE 1989**

As the industry is forced to **miniaturize** assemblies and components, we are experiencing a wave of new manufacturing challenges. **BarTron** has assembled a Team of experts to address changes in the **Printer Process, Solder Paste Powder Size, Placement Improvements, and Inspection Challenges**. Please join us for part 2 of our **Process Solution Series: Industry Progression to Miniaturization**

## Our Presenters

**Mark Brawley** is the President of Speedprint Technologies with 30+ years of industry experience

**Adam Murling** is the Assistant Engineering Manager of Technical Support at Indium. He has over 5 years of experience in SMT troubleshooting.

**Chip King** is the Sales Applications Engineering Manager at Fuji America Corporation with over 25 years of industry experience

**Sy Creed** is the Americas Sales Director for CyberOptics Corporation with over 28 years of industry experience.
