

Nordson TEST & INSPECTION to Demonstrate High Precision Inspection Solutions at SMTAI and SMT Guadalajara

Minneapolis, MN — October 2023 — [Nordson TEST & INSPECTION](https://www.nordson.com/testinspect) announces its participation in SMTAI and SMTA Guadalajara. The Company will showcase its state-of-the-art inspection and metrology solutions including the SQ3000™+ Multi-Function system for AOI, SPI and CMM, as well as the Quadra 7 Pro Manual X-ray Inspection (MXI) system in booth #1301 and #1305. The events will take place at the Minneapolis Convention Center from October 9th – 12th and from Wednesday, October 25th – 26th at the Expo Guadalajara in Mexico.

The SQ3000™+ Multi-Function system is specifically designed for high-end applications including advanced packaging, mini-LED, advanced SMT and 008004/0201 SPI. This all-in-one solution delivers unmatched accuracy and high-speed inspection, incorporating an even higher resolution Multi-Reflection Suppression (MRS®) sensor that effectively eliminates reflection-based distortions caused by shiny components and specular surfaces.

The Quadra 7 Pro MXI system sets a new industry standard for 3D/2D manual inspection in back-end semiconductor applications. Powered by the revolutionary Onyx® detector technology, it offers exceptional image clarity and low noise, elevating the inspection experience to new heights.

Equipped with the latest Dual Mode Quadra NT4® tube, the Quadra 7 Pro provides users with unparalleled flexibility. The innovative tube offers brightness and resolution modes, allowing operators to dynamically switch between them based on specific application requirements, providing optimal results for a wide range of inspection tasks.

The Quadra 7 Pro's capabilities are further enhanced by the newly developed Revaluation™ software tailored for high-end semiconductor applications. Boasting an intuitive interface, optimized workflow, and expanded functionality, Revaluation™ software empowers operators to efficiently analyze and interpret inspection data, facilitating faster decision-making and improved overall productivity.

About Nordson TEST & INSPECTION

Nordson TEST & INSPECTION offers its SMT & Semiconductor customers a robust product portfolio, including Acoustic, Optical and both Manual and Automated X-ray Inspection systems, X-ray Component Counting systems and Semiconductor measurement sensors. Nordson TEST & INSPECTION is uniquely positioned to serve its customers with best-in-class precision technologies, passionate sales and support teams, global reach, and unmatched consultative applications expertise.

About Nordson

Nordson Corporation (Nasdaq: NDSN) is an innovative precision technology company that leverages a scalable growth framework through an entrepreneurial, division-led organization to deliver top tier growth with leading margins and returns. The Company's direct sales model and applications expertise serves global customers through a wide variety of critical applications. Its diverse end market exposure includes consumer non-durable, medical, electronics and industrial end markets. Founded in 1954 and headquartered in Westlake, Ohio, the Company has operations and support offices in over 35 countries. Visit Nordson on the web at www.nordson.com, www.twitter.com/Nordson_Corp or www.facebook.com/nordson.
